Exclusive Photographic Safari #2

4 Nights

This is the ideal place to learn the ins and outs of wildlife photography. Let the Photographic team of wildlife photographers help you turn your ordinary wildlife photography into works of art! The game drives provide ample opportunity to photograph your favourite animals, from the smallest chameleon to the biggest of the Big 5.

You might even be lucky enough to photograph the more rare species like cheetahs and wild dogs, or any of the 300 bird species in the area! The photographic safaris occur over a four-day period. Professional photographer(s) accompany you on the morning and afternoon game drive vehicles. After the early morning drive, return to camp for breakfast. Then the photographic workshops presented by the photographers will provide you the opportunity to further develop and enhance the photos captured with your newly acquired skills.
